

**Power Failure**

CLS owns 2 generators capable of powering every essential business need for several days (computers, printers and lighting).

**Data Backup**

CLS accounting systems (SAGE) back-up automatically to an off-site location weekly. In addition, CD and USB backups are made and kept in a fire-proof safe.

Nightly backups of the server are made automatically to external hard drives. Those hard drives are swapped out weekly, with the backup being stored in a fire-proof safe.

**Fire/Major Disaster to Warehouse**

Feed can be ordered and picked up from Purina Mills within 24 hours. Bedding can be picked up at The Andersons in Delphi, Indiana quickly as well.

CLS management has portable computers kept off-site with accounting software that can download backed up information and process customer orders in the event of an emergency.

CLS has contacts at Penske Truck Rental to replace any damaged trucks in the event of a disaster, as well as contacts with Duke Realty to provide temporary warehousing within 24 hours.

Purina Mills has created a network of Certified Lab Dealers that undergo the same inspections and quality controls as Cincinnati Lab. The network of dealers can shift product allotments at Purina to the dealer in need or can send their own stock to dealers in need.

**Ask us about using HYDROGEL as your facility's emergency water supply.**
